The NID PLATFORM 6th edition doubles and presents two different events to relaunch Italian dance

Teatro Pubblico Campano, as the leading applicant detected by RTO for the realization of the Nid Platform 2021 in Salerno, announces that, as a result of careful assessment shared by the whole national dance sector represented by ADEP and RTO, the Artistic Commission appointed for the selection, MIC and the Campania Region - funding bodies of this project - it decided to revise the NID 2021 structure.

It has been decided to split in two events the NID Platform 6th edition, which celebrates its 10th years in occasion of its coming into the Campania Region.

On 17th and 18th September 2021 the Open Studios section shall be planned, whereas from 13th to 15th May 2022 the section Programming shall be presented.

These two sections shall display the projects and the performances selected by the jury, who worked with such commitment and fervor to this topic during online and in-class meetings that will be shortly published.

In September 2021 the event shall be focused on the Open Studios, developing productions which could better define their work path during discussions with Italian and International professionals.

In May 2022 the 10 performances selected for the Programming section shall be presented to an audience of wider professionals, among them we hope the foreign delegations could take part of it, given the limits dictated by the current health regulations.

Teatro Pubblico Campano, along with the promoters and supporters of the NID Platform, shall undertake to ensure the best visibility for all the selected projects and reserves the right to assess the opportunities to expand the program related to May 2022 for performances and projects selected by the Artistic Commission.

We thank all those who have supported and helped us for the choices to make, but overall, we would like to thank all the artists, to whom we wish all the best for a happy relaunch of live dance!
